

After you've finished

Reading a book

Playing a game

Watching a movie

You've been inspired to create something yourself.

You want to write a piece of **interactive fiction** but the technical overhead is a **massive** barrier to expressing yourself.

The Story Machine

By Beluga

If only there were a platform that was:

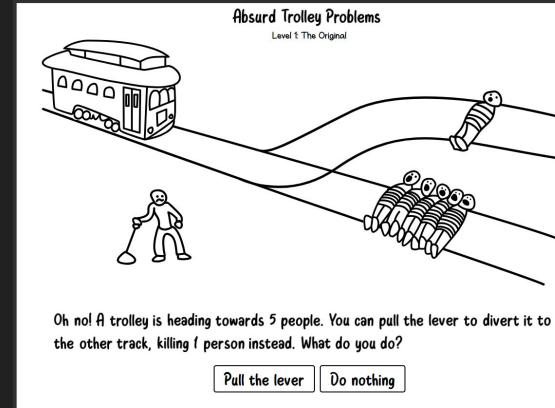

- Familiar
- Quick to onboard
- Designed for branching narratives

What is interactive fiction?

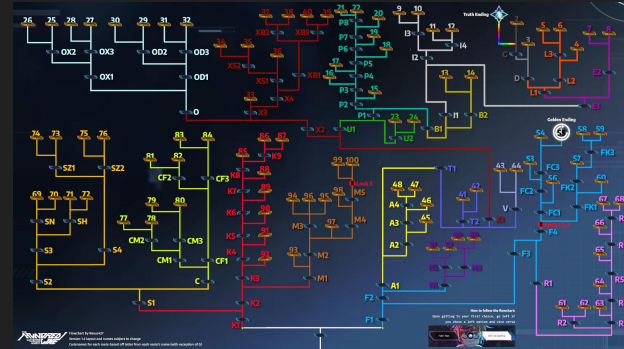

Choose your own Adventure

What We're Doing for #IFD2023

Published: Fri 10 Feb 2023 05:00PM UTC Comments: 20

The ninth annual International Fanworks Day (IFD) is approaching fast, and the OTW has a number of activities coming up soon to recognize it! Check out the list below to learn what we're doing to celebrate and how you can get involved.

Read more...

A fan-created, fan-run, nonprofit, noncommercial archive for transformative fanworks, like fanfiction, fanart, fan videos, and podfic

more than 56,250 fandoms | 5,478,000 users | 10,660,000 works

The Archive of Our Own is a project of the [Organization for Transformative Works](#).

With an AO3 account, you can:

- Share your own fanworks
- Get notified when your favorite works, series, or users update
- Participate in challenges
- Keep track of works you've visited and works you want to check out later

You can join by getting an invitation from our automated invite queue. All fans and fanworks are welcome!

Development

otwarchive v0.9.336.10

Known Issues

CPL by the OTW

Features:

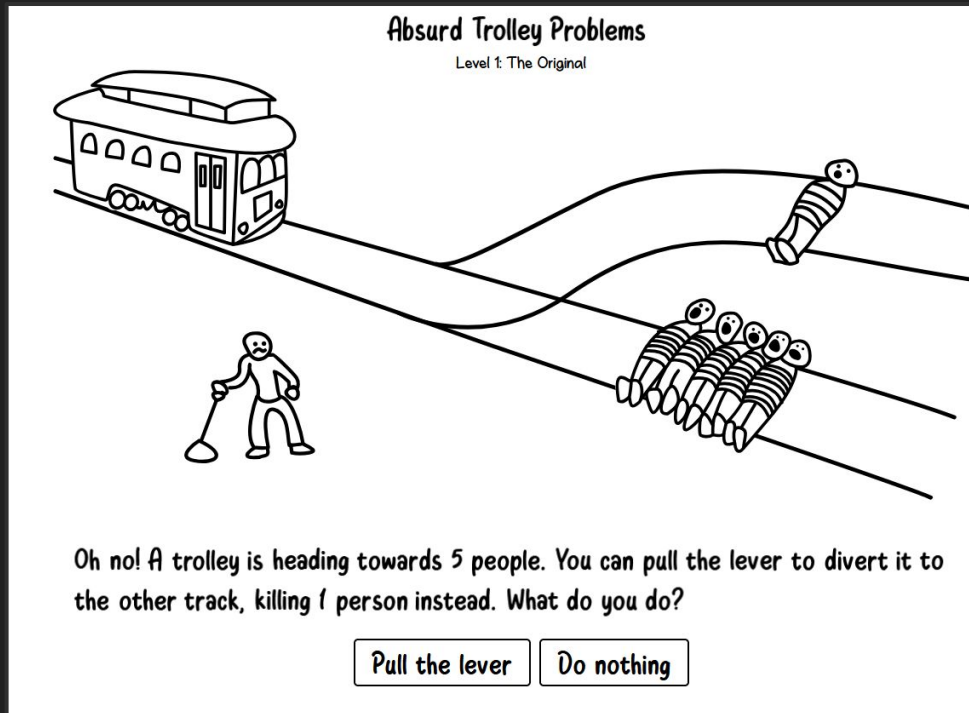

- Browsing Stories
- Publishing Stories
- Leaving comments

Core Scope

Write

Browse

Read

Features:

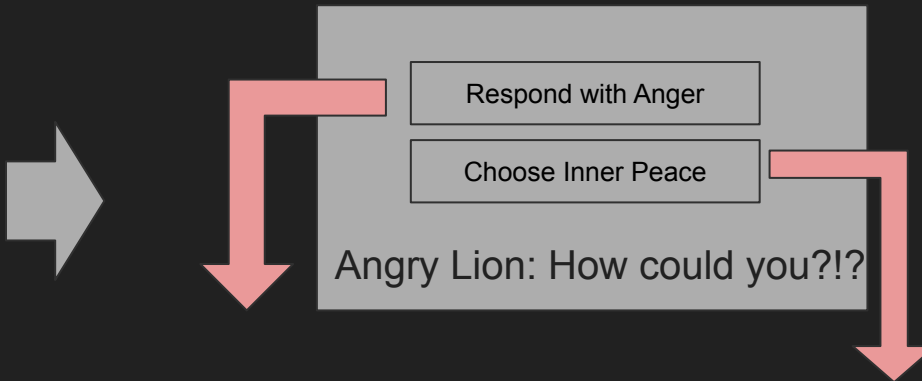

- Users can read/render stories

Example Formatting

Angry Lion: "How could you?!?"
* "Respond with anger." -> anger
* "Choose inner peace." -> peace

anger
The monkey responds to the lion with anger

peace
The lion doesn't phase you

The monkey responds to
the lion with anger

The lion doesn't phase you

User Value

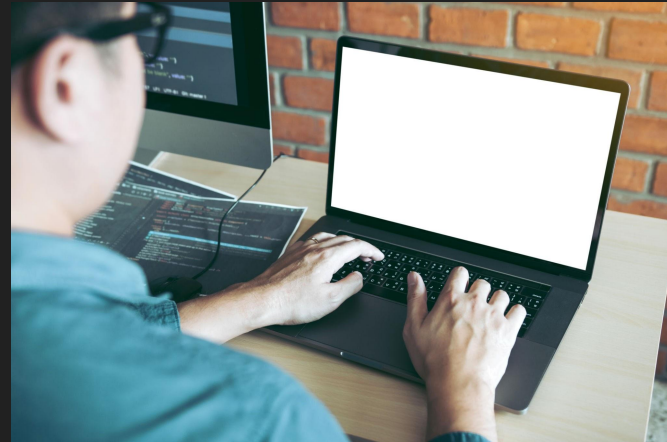

Readers:

- Make interesting choices
- Find stories that match their interest
- Designed for immersive storytelling
- Share your thoughts

Authors

- Write branching stories easily
- Customize the experience
- Stay organized
- Get feedback

Technical Direction

Frontend Framework

Web Framework

Database

Text Editor

CodeMirror

Microsoft Azure

Why these choices

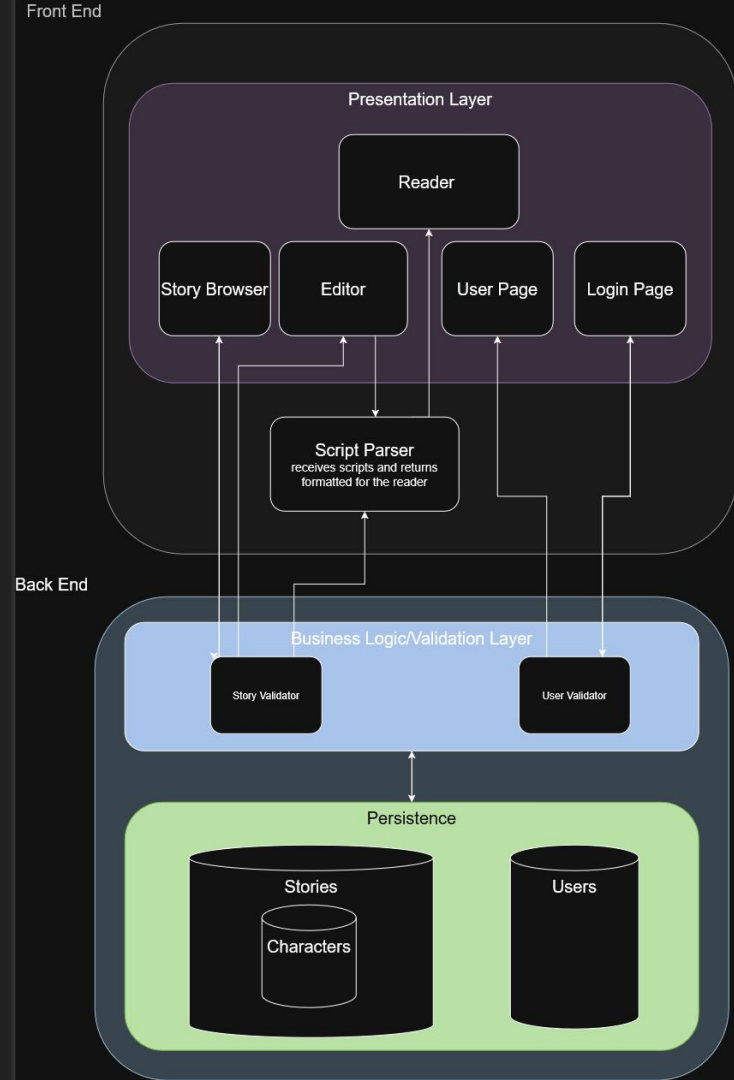

Angular: Its organized, enforces a standardized file architecture.

NestJS: Works well with MongoDB and Angular (TypeScript).

MongoDB: Stores each story as one flexible document, so we can add new features without redoing the database.

CodeMirror: It gives authors a real writing editor without building a text editor from scratch.
